

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Scandinavian Tung Oil Finish No. 600

Product Number: 600

Manufacturer Name: BEHR Process Corporation
Address: 3400 W. Segerstrom Avenue

Santa Ana CA 92704 NFPA

U.S. Contact Info.:

Business Phone: (714) 545-7101
Technical Service Phone: (800) 854-0133 ext. 2

Business Fax: (714) 241-1002

Canadian Contact Info.:

Business Phone: (800) 661-1591
Technical Service Phone: (800) 661-1591
Business Fax: (800) 387-0019

For Transportation Emergencies:

In the US, call CHEMTREC: (800) 424-9300

In Canada, call CANUTEC: (613) 996-6666 (call collect)

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

Product No. 600

Chemical Name	CAS#	Lower Percent	Upper Percent
Petroleum distillates, hydrotreated light	64742-47-8	60	100
Solvent Naphtha (Petroleum), Medium Aliphatic	64742-88-7	30	60
Lineseed oil	8001-26-1	15	40
Solvent Naphtha (Petroleum), light aromatic	64742-95-6	30	60
Stoddard solvent	8052-41-3	30	60
Additives, dyes, solvents, pigments, emulsifiers, and others	Mixture	15	40
Tung oil	8001-20-5	7	13
Petrolatum USP	8009-03-8	1	5

SECTION 3: HAZARDS IDENTIFICATION

Product No. 600

Emergency Overview: Comb

Combustible. Irritant.

Applies to all Ingredients

Potential Health Effects:

Eye Contact: May cause irritation. Skin Contact: May cause irritation.

Skin Absorption: May be absorbed through the skin in harmful amounts.

Inhalation: Prolonged or excessive inhalation may cause respiratory tract irritation. Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and Ingestion:

gastrointestinal irritation.

Chronic Skin Contact: Prolonged or repeated contact can result in defatting and drying of the skin,

which may result in skin irritation and dermatitis (rash).

Chronic Inhalation: Repeated or prolonged inhalation may cause toxic effects.

Target Organs: Eyes. Skin. Respiratory system. Digestive system. Central nervous system.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Aggravation of Pre-Existing

Conditions: conditions.

Guideline Type: No Information Provided

To Top of page

SECTION 4: FIRST AID MEASURES

Product No. 600

Eye Contact: Immediately flush eyes with plenty of water for 15 to 20 minutes. Get medical

attention, if irritation or symptoms of overexposure persists.

Skin Contact: Immediately wash skin with soap and plenty of water. Get medical attention if

irritation develops or persists.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give

oxygen by trained personnel. Seek immediate medical attention.

If swallowed, do NOT induce vomiting. Call a physician or poison control center Ingestion:

immediately. Never give anything by mouth to an unconscious person.

May aggravate pre-existing respiratory disorders, allergy, eczema, or skin

Other First Aid: Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested.

Provide a glass of water to dilute the material in the stomach. If vomiting occurs

naturally, have the person lean forward to reduce the risk of aspiration.

SECTION 5: FIRE FIGHTING MEASURES

Product No. 600

Combustible liquid. Fire: Flash Point: 104°F (40°C)

Flash Point Method: TOC Upper Flammable or Explosive 7%

Lower Flammable or Explosive

Limit:

1%

Extinguishing Media: Use alcohol foam, carbon dioxide, dry chemical, or water fog or spray when

fighting fires involving this material.

Fire Fighting Instructions: Combustible. Cool fire-exposed containers using water spray.

Protective Equipment: As in any fire, wear self-contained breathing apparatus pressure-demand,

MSHA/NIOSH (approved or equivalent) and full protective gear.

Unusual Fire Hazards: Combustible liquid. At elevated temperatures, vapors can form an ignitable

mixture with air. Vapors can flow along surfaces to distant ignition sources and

flash back.

To Top of page

SECTION 6: ACCIDENTAL RELEASE MEASURES

Product No. 600

Personal Precautions: Use proper personal protective equipment as listed in section 8.

Spill Cleanup Measures: Remove all sources of ignition. Absorb spill with inert material (e.g., dry sand or

earth), then place in a chemical waste container. Provide ventilation. Collect spill with a non-sparking tool. Place into a suitable container for disposal.

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

To Top of page

SECTION 7: HANDLING AND STORAGE

Storage:

Product No. 600

Handling: Use with adequate ventilation. Avoid breathing vapor and contact with eyes, skin

and clothing. Material will accumulate static charges which may cause an

electrical spark (ignition source). Use proper grounding procedures.

Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, and incompatible substances. Keep container tightly closed when not

ico

in use.

Work Practices: To reduce potential for static discharge, bond and ground containers when

transferring material.

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling

vapor or mist.

Special Handling Procedures: Do not reuse containers without proper cleaning or reconditioning.

Important Storage and Disposal: DANGER! Rags, steel wool and waste soaked with this product may

spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container. Do not store unused product inside the home. For disposal guidance, contact your household refuse collection service, fire department, county or state government environmental control

agency.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

Product No. 600

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust

ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training,

inspection and maintenance of the personal protective equipment.

Skin Protection Description: Chemical-resistant gloves and chemical goggles, face-shield and synthetic apron

or coveralls should be used to prevent contact with eyes, skin or clothing.

Hand Protection Description: Wear appropriate protective gloves. Consult glove manufacturer's data for

permeability data.

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR

1910.133, OSHA eye and face protection regulation, or the European standard

EN 166.

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor cartridge or

canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not

provide adequate protection.

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash

facility and a safety shower.

Ingredient Guidelines	Guideline Type	Guideline Information	
Petroleum distillates, hydro	otreated light		
	ACGIH TLV-TWA	200 mg/m3 (Negligible aerosol exposures)	
Stoddard solvent			
	OSHA PEL-TWA	500 ppm	
	ACGIH TLV-TWA	100 ppm	

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Product No. 600

Physical State/Appearance: Liquid
Color: Clear
pH: No Data

Vapor Density: Greater than 1 (Air = 1)

Density: 7.1-7.5 Lbs./gal.

Molecular Formula: Mixture
Molecular Weight: Mixture

To Top of page

SECTION 10: STABILITY AND REACTIVITY

Product No. 600

Chemical Stability: Stable under normal temperatures and pressures.

Conditions to Avoid: Heat, flames, ignition sources, and sparks. Incompatible materials. Freezing or

temperatures below 32 deg. F.

Incompatibilities with Other

Materials:

Oxidizing agents. Strong acids and alkalis.

Hazardous Polymerization: Not reported.

Hazardous Decomposition

Incomplete combustion may produce carbon monoxide and other toxic gases.

Products:

Note Refer to Section 7

SECTION 11: TOXICOLOGICAL INFORMATION

Product No. 600

Lineseed oil

Skin Effects: Skin - Human: 300 mg/3D (Intermittent); Moderate. (RTECS)

Solvent Naphtha (Petroleum), light aromatic

Eye Effect: Eye's - Rabbit : 100 uL/24H; Mild. (RTECS)

Stoddard solvent

Eye Effect: Eye's - Rabbit : 500 mg/24H; Moderate. (RTECS)

Skin Effects: Skin - Rabbit LD: >3 gm/kg; Details of toxic effects not reported other than

lethal dose value

Chronic Skin Effects: Skin - Rabbit TDLo: 2 gm/kg/4W-I; Skin and Appendages - dermatitis, other

(after systemic exposure) (RTECS)

SECTION 12: ECOLOGICAL INFORMATION

Product No. 600

Ecotoxicity: No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

To Top of page

SECTION 13: DISPOSAL CONSIDERATIONS

Product No. 600

Waste Disposal: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the

classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local

guidelines.

Important Disposal Information: DANGER! Rags, steel wool and waste soaked with this product may

spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container. Do not store unused product inside the home. For disposal guidance, contact your household refuse collection service, fire department, county or state government environmental control

agency.
